In opera true design the basic character is determined by the un iform design characteristics of all letters in the alphabet. Some per, this alone does not betermine the standard of the typeface an the quality of composition set with it. The appearance is somet hing compler which forms itself out of many betails, life form proportion rivelym etc. If everything harmonizes, the total resu It will be more than the sum of its components. The only reliab le basis for the desirm of a type is a positive feeling for form and etyle. In order to be able to realize the concept of a typeface, furt her development until the final type production, requires a large amount of Enowledge and experience. If one wants to achieven the optimum result of a particular type design, there is neither a besign principle nor any befined production system which coul substitute agnatinity emerience only extremely aubtle experime nting, even in toboy's type production. In every type beginn the basic character is determined by the uniform design characteris tics of all letters in the alphabet. Someper, this alone does not betermine the standard of the typeface and the quality of compo eition set mith it. The appearance is something compler which forms itself out of many details life form, proportion, rhythm of If everything barmonizes the total result will be more than the sum of its components. The only reliable basis for the design of a type is a positive feeling for form and style. In order to be able to realize the concept of a typeface, further development until the final type production, requires a large amount of Promledge an experience.
